# Workshop booking and private intake

TechBridge Consulting | FICTIONAL SAMPLE ONLY
Organization: Northside Legal Aid Clinic
Project: Workshop booking and private intake
Provider: Maya Patel
Document status: Awaiting organization review
Version: 1.0 | Example date: October 17, 2026
No real beneficiary information, credentials or account records are included.

## Scope

Workshop booking and private intake. Preserve existing organizational tools and use only synthetic data for this demonstration.

## Separate workflows

Keep bilingual public workshop registration separate from restricted follow-up intake. Do not collect legal case details in public registration.

## Permissions

Limit private intake to approved clinic staff. Test a public user, a workshop volunteer and an authorized staff role using synthetic records.

## Accessibility review

Test keyboard navigation, form labels and English/Spanish registration copy before release.

## Retention review

Clinic approval of a retention schedule remains a follow-up item; no automatic deletion period is asserted in this sample.

## Handoff status

The contractor has confirmed the sample handoff; organization confirmation remains pending. Confirmation is not a legal compliance certification.

## Ownership

The operations coordinator approves access and records configuration changes. The selected contractor supports the period agreed in the sample proposal.

## Acceptance evidence

Record expected and observed results, reviewer role and date for each test. Sample narratives do not constitute production test evidence.
