Westside Senior Center

Implementation guide - attendance and ride log

Status: Completed sample - both parties confirmed

1. Scope

Replace paper sign-in sheets, ride schedules and meal counts with one shared large-text log on a donated front-desk tablet. No cost to the center.

2. Configuration

Free cloud workspace owned by the center; coordinator-issued accounts.
Large-text interface; attendance, meals and rides stored per program date.
Monthly summary replaces the manual month-end tally.

3. Validation

Two volunteers completed check-in unaided; ride list generated correctly.
Monthly totals reconciled against one month of paper records.
Backup restored to a second tablet before sign-off.

4. Handoff

Owner after handoff: program coordinator. Ruth Okafor provides volunteer support for 90 days. Monthly tasks: review accounts and export records.
